

Thinley Norbu is a dedicated IT Officer currently working at the Royal Monetary Authority, where he oversees operational applications and develops software solutions to support the organization's needs. He graduated from the College of Science and Technology, where he gained a strong foundation in software development and data analysis. During his final year of college, Thinley contributed to the development of Bhutan's translation application, a challenging yet rewarding experience that showcased his problem-solving abilities and technical skills.

Prior to his role at the Royal Monetary Authority, Thinley worked as a software engineer and data analyst at IRIS company. In that role, he was responsible for developing and maintaining software solutions, with a primary tech stack that included SpringBoot for the backend and React for the frontend. He also gained proficiency in Next.js, Tailwind, Prisma, tRPC, and PostgreSQL. His work involved designing and implementing software features, collaborating with cross-functional teams, and ensuring the reliability and performance of the software products he developed.

Thinley's experience extends to working with technologies like NestJS, React, GraphQL, and Spring Boot. He is particularly interested in exploring new technologies and continuously expanding his skill set as a web developer.

Committed to strengthening his logical thinking skills, Thinley believes this is essential for effective problem-solving in software development. He approaches challenges methodically, breaking down complex issues into manageable tasks and leveraging available resources to find effective solutions.

Outside of work, Thinley enjoys hiking, photography, and experimenting with new recipes in the kitchen. His hobbies reflect his curiosity and passion for learning, as he continually seeks to challenge himself and embrace new experiences. Thinley is driven by a desire to push his limits and grow both personally and professionally, with the ultimate goal of becoming a highly skilled and versatile web developer.
